What others say about Seni Lady

Testimonial

I love these pads. (...) These pads are thinner and they don't have a plastic backing. They are very comfortable. I usually use the most absorbent size the pads come in but these regular/ultimate do the trick. They have an unusual shape (...). They are very wide and much more absorbent than I expected. They are also fairly long too. (...) They actually don't bunch up as much the other brands. Maybe that's why they are so comfortable and absorbent. No leaks here. (...)
